

Curriculum Vitae

Golnoush (Lia) Haddadian, Ph.D. ([she/her](#), [pronounce my name](#))

College of Education and Human Development
Department of Learning Sciences | Georgia State University
AI2 Research Laboratory: <http://www.ai2researchlab.org/>
ghaddadian1@gsu.edu | 231 College of Education and Human Development, 30 Pryor St SW,
Atlanta, GA 30303

Appointments

Postdoctoral Fellow (Start Date: January 2026). Georgia State University, University of Memphis, and Educational Testing Service (ETS)

Project Title: Scenario-Based Assessment in the Age of Generative AI: Making Space in the Education Market for Alternative Assessment Paradigms

Mentors: Drs. Cohen, J., & Magliano, J.

Education

- **Ph.D.** in Learning Sciences; AI² Research Lab; GPA: 4.14/4.00 (Honored).
Georgia State University, (Georgia, USA), (August 2021- Graduation: December 1st, 2025)
Thesis Title: Enhancing Argumentative Writing in English as Foreign Language Education through AI-Powered Personalized Learning
AI-Augmented Learning tool Developed: RITA – Real-time Intelligent Technology for Argumentative Writing

Advisor: Dr. Kim, M. K.

Committee: Drs. Darling-Aduana, J., Shapiro, B. R., & Motevali, S.

- **M.A.** in Applied Linguistics; GPA: 4.00/4.00 (Honored).
Sharif University of Technology, (Tehran, Iran), (September 2012- September 2014)
Thesis: Design and Development of a Computerized Adaptive Software to Test Written Receptive Vocabulary Knowledge of Foreign Language Learners.
Assessment Technology Developed: CATWRV – Computer Adaptive Test of Written Receptive Vocabulary

Advisor: Dr. Salehi, M.

Committee: Drs. Alemi, M., & Khomeijani Farahani, A.

- **B.A.** in English Language Translation; GPA: 3.71/4.00 (Honored).
Kar Institute of Higher Education, Emam Khomeiny International University (Qazvin, Iran),
(February 2008 – June 2012)

Research Projects

- Scenario-Based Assessment in the Age of Generative AI: Making Space in the Education Market for Alternative Assessment Paradigm, Funded by Institute of Education Sciences (IES)
Position: Postdoctoral Associate (Start Date: January 2026).

Mentors: Drs. Cohen, J., & Magliano, J.

The purpose of this project is to create a Generative artificial intelligence (Gen-AI) enhanced authoring tool for scenario-based assessments (SBAs). Because SBAs are difficult to develop, college instructors struggle to develop and deploy SBAs in their courses. Recent advances in Gen-AI make it possible to scale up and democratize SBA development, enabling instructors to design and administer localized, personalized, and discipline appropriate performance assessments that provide better feedback, higher levels of adaptivity, and richer diagnostic information (IES website).

- **LANGCASTX: An AI-Augmented Personalized Podcast Platform to Advance Language-science Competence for Speech-language Pathologists, Funded by Google.org (2025), Provided by NSF AI Institutes Virtual Organization (AIVO), AI4Ed Summer Program**
Position: Graduate Research Fellow (May 2025 – August 2025)
Mentors: Drs. Kim, M. K., Xiong, J., Hadley, P., Lane, H. C.

As part of a larger initiative involving five national AI research institutes in the United States (i.e., AI-ALOE, AI4ExceptionalEd, ENGAGE AI, iSAT, and INVITE), our interdisciplinary team brought together researchers from two of them—the National AI Institute for Exceptional Education (AI4ExceptionalEd) and the National AI Institute for Adult Learning and Online Education (AI-ALOE)—to advance the shared vision and mission of both AI institutes and to foster innovation at the intersection of AI and education. Through this collaboration, we aimed to address a real-world problem experienced by practicing Speech-Language Pathologists (SLPs) who treat children with language disorders. Existing research highlights a critical gap in language science knowledge among SLPs, which poses a substantial barrier to the effective implementation of evidence-based assessment and intervention practices. Thus, we designed and developed an AI-augmented platform to offer personalized learning episodes adapted to the daily questions and challenges of Speech-Language Pathologists (SLPs).

- **Secure and Trustworthy Cyberspace (SaTC): Private Artificial Intelligence (AI), Funded by the National Science Foundation (NSF)**
Position: Graduate Research Associate (August 2021 – May 2025)
Mentors: Drs. Kim, M. K., Takabi, D.

This interdisciplinary project focused on AI and privacy (private AI), supported by the Secure and Trustworthy Cyberspace (SaTC) program. Aligned with the Federal Cybersecurity Research and Development Strategic Plan and the National Privacy Research Strategy, it aimed to protect the benefits of cyber systems while ensuring security and privacy. The project developed instructional materials and hands-on labs to train students in trustworthy AI. It aimed to address the fast-growing demand for skilled researchers by integrating technical knowledge with ethical and privacy-focused practices in AI.

- **AI Institute for Adult Learning and Online Education (ALOE), Funded by the National Science Foundation (NSF)**
Position: Graduate Research Associate (January 2022 – December 2025)
Mentors: Drs. Kim, M. K., Goel, A. K., Dede, C.

This interdisciplinary project aims to transform online adult learning through AI-driven models grounded in cognitive and social learning theories. It addresses the distinct needs of adult learners by developing intelligent virtual assistants and personalized learning systems. The initiative brings together a national network of universities, nonprofits, and industry partners to advance foundational research in areas such as cognitive-based AI, scalable personalization, human-AI collaboration, and ethical AI design. Using iterative learning engineering and mixed-methods

evaluation, the project seeks to deliver scalable, equitable, and effective solutions for adult education.

- IUSE-Engaged Student Learning (Level 1): AI-Scaffolded Pre-Classroom Learning for Large/Introductory Undergraduate Physics Courses, Funded by the National Science Foundation (NSF)

Position: Graduate Student Researcher (August 2024 - present)

Mentors: Drs. Kim, M. K., Abdeen, M. S.

This project designs and implements AI-augmented formative assessment and feedback systems to help students build skills for in-classroom interactive problem-solving activities. The aim is to determine whether AI in education improves students' well-being inside and outside the classroom, with a focus on those traditionally underrepresented in STEM education. Extensive data collected in the final phase will examine the relationships among pre-classroom activities, in-classroom performance, self-efficacy, interest in physics, and student backgrounds, including gender, race, ethnicity, first-generation status, and English language learning.

Awards and Honors

- Recognized for outstanding contributions to global engagement and dedication to global citizenship and nominated for the 2025 International Education Award in International Initiatives. (Georgia State University, Atlanta, GA; 2025).
- AI4ED Summer Fellowship (\$12,500), AI in Education Interest Group, The AI Institutes Virtual Organization (AIVO). Awarded to selected graduate researchers representing five major AI in Education Institutes across U.S. (iSAT, AI-ALOE, EngageAI, AI4ExceptionalEd, and INVITE). AIVO acts as a central hub connecting the 27 major AI Institutes across U.S. (See the list here: <https://aiinstitutes.org/institutes>), supporting research that advances U.S. innovation and well-being. Funded by the National Science Foundation and Google.org. (AIVO, Chicago; 2025).
- Outstanding Ph.D. Student in Learning Technologies (LT) Award, College of Education & Human Development (CEHD). Given to a student who has demonstrated potential for excellence in research, teaching and service in instructional technology (Georgia State University, Atlanta, GA; 2025).
- Recipient of the American Institutes for Research's (AIR's) *Quantitative Evidence Synthesis (QUEST)* fully-funded training program (2025), Chicago, Illinois.
- Graduate Student Travel Award (500\$), College of Education & Human Development (CEHD), Learning Technology Department (Georgia State University, Atlanta, GA; 2025).
- Graduate Student Travel Award (500\$), College of Education & Human Development (CEHD), Learning Technology Department (Georgia State University, Atlanta, GA; 2024).
- Association for the Advancement of Computing in Education (AACE) Conference Paper Award, Society for Information Technology & Teacher Education, Las Vegas, Nevada, 2024 & Association for the Advancement of Computing in Education (AACE). Awarded to papers distinguished as outstanding by the AACE Program Committee for exceptional quality, originality, and significant scholarly contribution (Waynesville, NC, 2024).
- Doctoral Student Fellowship Award, College of Education & Human Development (CEHD), Department of Learning Sciences. Given to three PhD students (15000\$ each) who demonstrate

exceptional scholarship and academic potential in the Learning Technologies (LT) department (Georgia State University, Atlanta, GA; 2023).

- Graduate Student Travel Award (500\$), College of Education & Human Development (CEHD), Learning Technology Department (Georgia State University, Atlanta, GA; 2023).
- Admitted to the M.A. program at Sharif University of Technology as exceptional talented undergraduate student supported by the National Organization for Development of Exceptional Talents (Tehran, Iran; 2012).
- Ranked in top 1% among all participants in the Master's degree Nationwide University Entrance Exam (Tehran, Iran; 2012).
- Ranked 1st in GPA for Bachelor's (2012), Master's (2014), and PhD (2025) degrees.
- Innovative and Supportive Teacher of Foreign Languages Award: Balan Language Academy (Tehran, Iran; 2013).
- Outstanding Teacher of Foreign Languages Award: Aryana Fanavaran Institute of Technology (Tehran, Iran; 2010).
- Distinguished Student Researcher Award: Young Researchers and Elite Club (Tehran, Iran; 2006).
- Outstanding Student Researcher Award: Shahid Shamloo High School (Tehran, Iran; 2005).

Invited Talks/Workshops

- Han, H., **Haddadian, G.**, Kim, Abdeen, M. S., Kim, M. (2025). Cheating or Adapting? Plagiarism Behaviors in AI-augmented Physics Course. A poster session at the *Snap Inc. Center for Computer & Teacher Education*, Organized by Graduate Student Association (GSA) and Department of Learning Sciences (DLS), College of Education & Human Development (CEHD), Georgia State University, Atlanta, GA.
- **Haddadian, G.** (2023). A Comprehensive Model of AI Literacy from a Developmental Perspective: Virtual talk/presentation was given at *Lunch and Learn Spring 2023*, for faculty, PhD and Master students. Department of Learning Sciences (DLS), College of Education & Human Development (CEHD), Georgia State University, Atlanta, GA.
- **Haddadian, G.** (2022). Personalized Learning and Student Mental Model Analyzer (SMART): A Seven-minute presentation was given at *AI-ALOE Full-day NSF Visit*, for Jim Donlon, the NSF Director of AI Institutes Program, Abby Illumoka, the NSF cognizant program officer, Li Yang, an NSF program officer, as well as Neil Heffernan and Carol O'Donnell as the External Advisory Board Members. This talk was accompanied with intense discussions. Georgia Institute of Technology, Atlanta, GA.
- **Haddadian, G.** (2019 to 2021). *Workshop Series on Proposal Writing for Master's Thesis Preparation* (Audience: undergraduate and graduate students). In these monthly recurring series, the focus was on the essentials of writing a research proposal, for Master's students. The series delved into various aspects, including grammar and mechanics, clarity and conciseness, structure and organization, proofreading, referencing styles, argumentation skills, and digital literacy. Students engaged in hands-on experience where they worked on their own topics and received intensive one-on-one feedback and personalized guidance to enhance their work. Tehran, Iran.
- **Haddadian, G.** (2019 to 2021). *Navigating the University Application Process: A Step-by-Step Guide* (Audience: undergraduate and graduate students). This webinar was designed to offer a thorough, step-by-step roadmap for applying to universities in the United States and Canada. It aimed to cover each stage of the process, including preparing essential application documents like CVs, SOPs, test scores, letters of recommendation, and research plans, as well as strategies for effective communication with professors and completing the application form. Tehran, Iran.
- **Haddadian, G.** (2019 to 2021). *The Art of Teaching English: Tools and Techniques for Innovative Classrooms* (Audience: school principals, teachers, educators). The webinar delved into the integration of creative approaches and tools in English teaching practices. It aimed to discuss the latest technologies that educators can use to supercharge creative thinking, be innovative and enhance student engagement. Tehran, Iran.
- **Haddadian, G.** (2019 to 2021). *IELTS or TOEFL: Making the Right Decision* (Audience: undergraduate and graduate students). This webinar aimed to discuss the differences between the IELTS and TOEFL exams, focusing on their international testing standards, to help students make informed decisions. It aimed to examine how individual characteristics and goals influence the choice of exam and provide insights into the best exam preparation methods and resources available. Tehran, Iran.

Teaching Experience

- *Co-designer/Instructor* for “LT 3737/7777: Inventing to Learn: Teaching and Learning with Maker Technologies”

Georgia State University, GA, USA (Fall 2025 to present, Undergraduate/Graduate Students)

In this course, students learn to apply maker technologies in educational contexts while also examining issues of social justice, equity, and the democratization of production in maker education. They engage with a range of software and hardware tools to design quality educational products grounded in sound learning theories and pedagogical practices.

- *Instructor of Record* for “LT2010: Computer Skills for the Information Age”
Georgia State University, GA, USA (Fall 2022 to present, Undergraduate Students)

In this course, students learn essential computer skills for organizing, analyzing, and communicating data. The focus is on empowering students to excel in various areas, including using word processing tools, spreadsheets, and databases. They also learn how to improve their presentation skills and develop a website. Students engage with assignments and projects from their coursebook written by Dr. Brendan Calandra and Dr. Lauren Margulieux, providing them with hands-on experience to develop a solid foundation in computer skills. The ultimate goal of the course is to prepare students to succeed in today's data-driven world.

- *TOEFL coach, TESOL Trainer, EFL Instructor*
RadGuyesh Haddadian International Institute, Iran, Tehran (January 2019 to 2021, K-12, Adult Learners, Teachers)

Several courses were taught by me at this institute. The institute is a multidisciplinary educational center specializing in English language learning and computer science. It offers General English courses, Test of English as a Foreign Language (TOEFL) and Graduate Record Examinations (GRE) preparation programs, English teacher training through Teaching English to Speakers of Other Languages (TESOL) certification and diploma programs, as well as advanced computer science courses such as Machine Learning and Deep Learning. I served as the lead instructor for the TOEFL and TESOL “training the trainers” courses on a full-time basis and occasionally taught General English classes.

- *Adjunct Instructor* for “English for Master of Business Administration (MBA)”
Andisheh Moein Institute of Higher Education, Iran, Tehran (Fall 2019 to 2020, Graduate Students)

In this course, students develop the language skills required for success in business-related academic and professional settings. They learn to understand and use business-specific vocabulary, read and analyze case studies and reports, write formal documents such as reports and summaries, and effectively communicate in presentations and discussions. The course emphasizes academic and professional English fluency tailored to the MBA context. The institute within which the course is offered is a non-profit, multidisciplinary higher education institution in Iran, offering programs designed for professionals, working adults, and individuals seeking to advance their careers through specialized, skill-based education. The institute supports education, research, and workforce development.

- *Adjunct Instructor* for “Introduction to Educational Technology”
University of Applied Sciences, Iran, Tehran (Summer 2015 to 2016, Undergraduate Students)

In this course, students explore the foundational concepts, tools, and practices involved in integrating technology into teaching and learning environments. They learn to evaluate and apply digital tools to enhance instructional design, create interactive learning materials, and support diverse learners with diverse needs. The course emphasizes practical skills in using educational

software, learning management systems, and multimedia resources while encouraging critical thinking about the ethical and pedagogical implications of technology in education.

- *TOEFL coach, EFL Instructor, Technology Instructor, Educational Consultant*
Tehran Pouya Technical & Vocational Training (March 2015 to December 2018, K-12, Adult Learners)

Several courses were taught by me at this institute. This is a private educational institution offering English language courses as well as technical and vocational training programs verified by the Technical and Vocational Training Organization in Iran. The institute is committed to providing skill-based education that prepares learners for both professional and academic advancement.

- *Education administrator, EFL Instructor, Supervisor, Educational Consultant*
Balan Language Academy (October 2009 to March 2015, K-12, Adult Learners)

This is a private educational institution offering English language courses verified by the Ministry of Education in Iran. It primarily serve K–12 students and adult learners by offering General English, conversation, and grammar courses. Instruction is typically based on structured curricula aligned with international standards. Classes are held in group or individual formats, with regular assessments to track student progress.

- *EFL Instructor, Technology instructor, Educational Consultant*
Aryana Institute of Technology (February 2009 to September 2012, K-12)

This is a multidisciplinary educational institution in Iran, offering programs in both English language education and Information and Communication Technology (ICT). It serves a wide range of learners, from pre-K–12 students to adults. The institution is affiliated with Mojtama Fani Tehran, the country's leading educational brand in technology, recognized at the Second Festival of Communication and Information Technology (ICT) in Iran.

- *EFL Instructor, Educational Consultant*
Iran-Europe English Language Institute (January 2011 to January 2012, K-12)

This is a private educational institution offering English language courses verified by the Ministry of Education in Iran. These institutions primarily serve K–12 students and adult learners by offering General English, conversation, and grammar courses. Classes are held in group or individual formats.

- *EFL Instructor, Technology Instructor*
Private Tutor (April 2004 to 2021, K-12, Adult Learners)

Mentorship & Leadership

- *Mentorship Program Initiator & Mentor* (2025- 2026). International Learning Sciences Student Association (ILSSA) Mentorship Program.
- Mentorship Program aims to create an adaptive, inclusive, collaborative space for Learning Sciences students and researchers to connect, enhance their expertise, and foster personal and professional development. We aim to empower participants by providing opportunities to receive personalized mentorship to address academic challenges, build professional networks, strengthen leadership and communication skills, and gain constructive feedback on their progress where necessary. By joining, individuals become part of a shared journey

that focuses on mutual support, growth, and inspiration within the Learning Sciences community.

- *Graduate Student Mentor* (2025 - Current). Georgia State University. Mentoring a team of six master's students in Business Analytics and Computer Science at J. Mack Robinson College of Business for the RITA (Real-time Intelligent Technology for Argumentative Writing) Project.
- *Student Representative and Proposal Evaluator for Faculty Technology Initiatives*. College of Education and Human Development, Georgia State University. 2025.
- *Publication Committee*, Student Representative | Publication Copyright Permissions. The International Society of the Learning Sciences (ISLS/ICLS). Since 2024.
- *Africa and Middle East Regional Representative* (. 2024 to 2025). International Learning Sciences Student Association (ILSSA) at ISLS/ICLS.
- *Founder of RadGuyesh Haddadian International Institute*, a multidisciplinary institute offering programs in English language learning and teacher education, TOEFL and GRE exam preparation, and machine learning and deep learning for Iranian students. January 2019 to 2021.

Curriculum Development

- *Module on Responsible Use of Generative Artificial Intelligence* (GenAI; Audience: graduate students; Summer 2024).
- *Private Artificial Intelligence Curriculum* (10 modules; Audience: graduate students; 2021 to 2023).
- *TOEFL Standard/Intensive Courses* (10-Week/5-Week Curriculum; Audience: undergraduate and graduate students; Since 2015, updated regularly).
- *GRE Standard Course* (10-Week Curriculum; Audience: undergraduate and graduate students; Since 2019, updated regularly).

Media Appearances

- Georgia State University News Hub (2025). Lia Haddadian: Committed to Personalization, Innovation and Human-Centered AI
- AI-ALOE Student Researchers Selected for Prestigious AIVO AI4Ed Fellowship (2025).
- Graduate Newsletter AERA Graduate Student Council (2025). Academic Achievements (2025).
- Learning Technology Spring 2025 PhD Newsletter (2025). Student highlights (p. 2).
- College of Education & Human Development (2025). Honors day - Outstanding Ph.D. Student in Learning Technologies, Department of Learning Sciences.
- College of Education & Human Development (2024). Monthly Accolades and Accomplishments - Students and Alumni (p. 9-10).
- College of Education & Human Development (2024). Monthly Accolades and Accomplishments - Students and Alumni (p. 4-5).
- Graduate Newsletter AERA Graduate Student Council (2024). Academic Achievements (p. 7).
- College of Education & Human Development (2023). Student News Website: Student Accolades and Accomplishments (p. 5-6).
- The AI-ALOE Spotlight Newsletter (2023). Student Highlights (p. 11).

- Learning Technology Spring 2024 PhD Newsletter (2024). Student Accomplishments (p. 2).
- The Center for Excellence in Teaching, Learning, and Online Education (CETLOE) & College of Education & Human Development Website (2024). Teacher Appreciation.
- Ai²Research Laboratory (AI²RL) News Website (2024). Graduate Associate Significant Milestones.

Grant Development

- AIM HIGH: AI-Integrated Multimodal Hybrid Instruction for Growth in Higher Education (Using Generative Artificial Intelligence to Improve Instruction in Postsecondary Education), AI²RL lab, Georgia State University; Role: *Student Assistant*.

Technology Skills

- Quantitative Analysis: SPSS, RapidMiner, Power Automate (in Process Mining)
- Qualitative Analysis: Dedoose, NVivo, Transana, ATLAS.ti, MAXQDA
- Visualization: Tableau, Infranodus, Social Worker, Gephi (in Social Network Analysis)
- Multimedia: Premiere, Audition, Director, Flash, Lightroom, Publisher, Multimedia Builder, Photoshop
- Web design: WordPress, HTML/CSS
- Instructional Design: Articulate Rise 360, Articulate Storyline 360
- Programming: familiar with basic Python, R

Certificates

- Social Network Analysis, University of California, Davis (2024).
- Introduction and Applications of Generative AI, IBM® & Google Cloud (2024).
- Prompt Engineering, IBM® (2024).
- TESOL (Diploma in Teaching English to Speakers of Other Languages), Vancouver TESOL Training Center (VTTC Canada) (2019).
- Machine Learning Engineer: Sharif University of Technology (2019).
- LAS License (License of Advance Standing for Teachers of International English), TIELC International TESOL (2019).
- Certificate in Teaching Pronunciation, London Teacher Training College (VTTC Canada) (2017).
- HTML/CSS/WordPress: Sharif University of Technology (2015).
- JAVA J2SE Developer: Learning and Information Technology Laboratory (LAITEC) (2014).
- TESOL (Diploma in Teaching English to Speakers of Other Languages), London Teacher Training College (LTTC London) (2013).
- TKT (Teaching Knowledge Test: Module1- Module2- Module 3), Cambridge University (2010).
- Multimedia Builder, Adobe Director, Visual Basic, Adobe Photoshop: ICT, Sharif University of Technology (2004-2006).

Other Activities

- Volunteer Work
Tutoring: to students from low-income families (Tehran, Iran, 2015–2018, one day a week).
Project FEED (Food Equity and Efficient Delivery): This initiative aims to fight food insecurity in under-resourced areas of Atlanta. Backed by the 2025 Youth Stop Hunger Sodexo Grant, its goal is to provide families in need with access to fresh, healthy food while enhancing local food networks through collaborative community efforts (Atlanta, Georgia, 2025).
- Personal Interests
Photography: Nature and still life; amateur, detail-oriented (amateur).
Sports: Occasional fitness trainer
